

# Pearson Test of English Academic (PTE Academic)

Regent University now accepts PTE Academic as another option for international students who need to demonstrate their English language proficiency. PTE Academic is a computer-based academic English language proficiency test designed to measure reading, writing, listening and speaking skills, as they are used in an academic setting.

Students take the entire three-hour test in one sitting, at a date and time that suits them in one of Pearson VUE's network of global test centers. Results are delivered online to students normally within 5 days.

Regent University requires a minimum score of 61 on PTE Academic. Students can learn more about PTE Academic and how to register online by visiting [www.pearsonpte.com/testme](http://www.pearsonpte.com/testme).
