Career Objectives

To continue to grow in leadership and knowledge, excel in innovative technology application, interact and share with team members and colleagues, and develop world class solutions to real world challenges.

Education

- | | |
|----------|--|
| Oct 1995 | Master of Science in Computer Science <ul style="list-style-type: none">New York State University Department of Computer Science
New York, New YorkThesis Adaptive Testing with Granularity |
| Oct 1994 | Bachelor of Science (Honors) in Computer Science <ul style="list-style-type: none">University of Boston Department of Computer ScienceBoston, MA |

Technical Skills

Programming Languages	C and C++ Java Perl	JavaScript LISP (CLOS) Eiffel	Delphi Prolog Pascal
Operating Systems	Solaris Linx Iric	Windows 95 NT OS/2 Macintosh	VM VMS OS/400

Work Experience

Jan 1997 – present

New Age Solutions
Helena, MT

Manager, Programming and Product Development

- Manage a team of developers working on Web delivered applications
- Management aspects include coordinating with other areas of the company and defining procedures
- Design and develop interactive, database-oriented Web sites and front-ends
- Primary Development in Perl, Java, JavaScript, Oracle, and HTML using a variety of Unix and NT based operating systems

Jul 1996- Dec 1997

Comp. Science Dept.
University of Boston
Boston, MA

Research Associate

- Conduct research in Peer Collaborator identification in conjunction with the Tele-learning Networks of Centers of Excellence
- Conduct lectures for Computer Science 212, an 8-x85 assembly language course
- Conduct lectures for a first year computer science course (150 students)

Mar – Apr 1990

May – Jun 1995
MA Research Council
Adv. Computing
Cambridge, MA

Student Researcher

- Design and perform comparison study of various adaptive testing systems
- Design and develop an algorithm for performing adaptive student assessment for a hierarchical course structure
- Development in C++ on a Sun Sparc platform
